THE SEEMA LAND SLIDE.—The Selma (Ala.)
Reporter, of the 18th inst., says:

The land slide has made but little progressince Saturday evening, at which time a large-port on of the bluff, extending from the end of the railroad track some fifty or sevenity yards lowe the river, left in. The wells in the vicinity are still dry. What will be the result time only can decide. Various are the conjectures as to the cause and effect, and to give all the opinions would occupy more of our paper than we can spare. We believe, however, that all agree that the bluff did actually fall in, and that the wells have ceased to afford any water.
